How to get to the spiritual center of Agia Anna and to the house of Markner

Drive through Apollonia in direction to Cheronissos, also in front of the central bus station in Artemonas turn right in direction to Cheronissos.

After about 700m you will pass the cultural center (left big bright building, usually flagged), approx. 400 meters behind it is a crossing which leads left up to Agia Anna (on the hillside is a windmill seen) and which leads right down to Cheronissos. At the crossing is left side a brick bus stop. Turn left up to Agia Anna and park directly behind the pottery shop (right) or in opposite of the ceramic shop on a newly created parking place.

Behind the ceramic shop you have to follow right side the path for about 10 metres until a crossing. Then follow the right path in direction to the church and it is the first house left side with the big red bougainvilleae.
